PROFILE

Software developer with 10+ years of experience building products end to end: native and cross-platform mobile apps, web interfaces and backend services. I work with Swift, Kotlin, React Native and Flutter on the client side, and with C#/.NET, Node and NestJS on the server. I have shipped applications to the App Store and Google Play, migrated codebases to maintainable architectures (MVC → MVVM) and optimised the performance of apps in production. Engineering degree from Universidad de las Ciencias Informáticas, certified in iOS and Flutter by Platzi.

TECH STACK

MOBILE	Swift, Objective-C, Kotlin, Java, React Native (Expo), Flutter/Dart, App Store & Google Play releases
BACKEND	C#, .NET 9, Node.js, NestJS, REST APIs, WebSocket, SQL Server, MongoDB, Supabase
FRONTEND	React, Next.js, Electron, JavaScript, TypeScript, Tailwind CSS
INTEGRATIONS	OpenAI API, Stripe, Firebase, internationalisation (i18n)
PRACTICES	MVVM, Clean Architecture, unit testing, Git, CI/CD

EXPERIENCE

Oct 2023 – Jul 2026 · Brazil

Fullstack & Mobile Developer · Freelance / Contractor

- C#/.NET backend development and mobile applications for clients in Brazil, on long-term engagements.

WinTaylor — workforce management

Mobile Team Lead

- Led the mobile team (3 developers): work planning and allocation, code review and architecture decisions, and ownership of the release cycle.
- Evolved the field mobile application in **React Native (Expo)** for iOS and Android: new features plus substantial performance and stability improvements.
- Geolocated and biometric clock-in, shift calendar, digital signature, identity verification (KYC), offline mode and push notifications; OTA releases with EAS and a pt-BR localised interface.

Jun 2022 – Oct 2023 · São Paulo, Brazil

Software Engineer · AVA

- Developed and maintained mobile applications for iOS and Android across the full cycle: new features, bug fixing and store releases.

Mar 2021 – Jun 2023 · Uruguay (remote)

React Native Developer · TuAppto

- Built the cross-platform mobile application in React Native for iOS and Android.
- Shipped new features on a codebase shared across both platforms and kept the application evolving over more than two years.

Dec 2021 – Jun 2022 · Spain (remote)

Mobile Application Developer · Inycom

- Built mobile applications for iOS and Android within a distributed team, focused on new features and on maintaining ongoing projects.

Jan 2021 – Dec 2021 · United States (remote)

iOS Developer · KwikVet — Pet Care On-Demand

- New features and interfaces for the on-demand veterinary care app, plus custom pods built to improve application performance.
- Owned App Store releases and updates.

Jan 2020 – Nov 2020 · Miami, USA (remote)

iOS Developer · CubaCitas

- Developed application interfaces and features in Swift, and published the app to the App Store.
- Migrated the architecture from MVC to MVVM, improving testability and maintainability.

Jan 2017 – Jun 2019 · United States (remote)

Android & iOS Developer · Rezglo

- Native Android and iOS development over two and a half years, owning releases and updates on both the App Store and Google Play.

Sep 2013 – Aug 2018 · Cuba

Network Administrator · Prensa Latina

PROJECTS & APPLICATIONS

Outly — side project, 2026
YouTube outlier finder with AI-driven insights. Built with Next.js, TypeScript, Supabase, Stripe and the OpenAI API, with a multilingual interface.

KwikVet — App Store

KwikVet for Vet Professionals — App Store

EDUCATION, CERTIFICATIONS & LANGUAGES

Engineering degree, Web Application Development
Universidad de las Ciencias Informáticas (UCI), Cuba · 2007 – 2013

Certifications — Platzi
iOS Mobile Developer · Flutter · 2020 – 2021

Languages
Spanish native · Portuguese intermediate · English intermediate
